EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Colleen McKiernan, Ph.D. on March 13, 2009.

The application has been amended as follows:

In the claims:

Claim 1, line 3, after "hydrogen sulfate salt", please insert --, with the proviso that the quarternary ammonium salt and the hydrogen sulfate salt are not the same salt--.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is based on the above amendment to claim 1. The proviso language distinguishes the instant claims from the Japanese patents JP 2003-239544 and JP 2003-231680, particularly the trioctylmethylammonium hydrogensulfate salt in both patents can be construed as a quaternary ammonium salt as well as a hydrogen sulfate salt. As now amended, the claims are novel and unobvious over both Japanese patents JP 2003-239544 and JP 2003-231680.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
